

Paragraph	Summary of Request	Submission Details
36	Implications of 2018 SNHP on OAN	Letter provided to the Inspector on 18 November 2020 and published on website.
39	Additional sites to meet OAN	Additional sites provided to the Inspector on 30 November 2020.
40-51	Additional evidence on new capacities of submitted sites and windfalls	The table on Housing Land Supply provides a summary explanation relating to evidence on additional capacity. Some sites have already been discussed at hearing sessions; some have updated HELAA assessments and some have planning permission. A note justifying the windfall assumption was sent on 30 December 2020.
57	Cross reference to session notes previously published	See note Stage 8 Hearing Sessions Actions sent with this note. Action items following earlier sessions have already been addressed.
60	SP17 – updates to policy and diagram	Amendments to policy SP17 are included in the Proposed Modifications List. Revised Strategy Diagram for SP17 sent on 31 December 2020.
63-65	SP18 – removal of airfield requirement, revision of green belt boundary, northward extension of site, reassess facilities and services	Note on SDS1 changes submitted 30 December 2020 and amendments to policy SP18 are included in the Proposed Modifications List. The Council is working on a Statement of Common Ground with Homes England.
75	SP19 – exclude southern portion of site, reassess capacity, revise diagram, reassess neighbourhood centre and services, include parameters for green corridor, revise green belt boundary	Note on SDS2 changes submitted on 31 December 2020 and amendments to policy

		SP19 are included in the Proposed Modifications list.
78-79	SP22 – provide further justification for development in relation to high harm green belt portion of the site, revise key diagram and capacity	Note on SDS5 justifying use of high harm Green Belt submitted on 31 December 2020.
82	SP23 – consider development for housing if insufficient housing sites elsewhere, reflect house type in policy and housing trajectory	Statement of Common Ground between WHBC and GCE sent relating to housing types sent on 22 December 2020 and confirming it will come forward C3 dwellings. Changes to policy SP23 contained within Proposed Modifications list. Additional capacity reflected in revised housing trajectory and HELAA sent on 31 December 2020. The Council consider that provision of employment on this site is critical to meeting need for additional jobs for a growth in the economically active population.
89-95	SP24 – reassess north east expansion area in relation to high harm green belt, reconsider northern expansion areas, provide additional justification	A note on policy SP24 Symondshyde was sent on 31 December 2020 and updated HELAA.
98	HS11 – reconsider south west corner for green belt impact, provide appropriate boundary of green belt including comprehensive treatment of this area	Information was sent to the inspector on 6 October 2020 and 18 December 2020.
109	HS15 – consider alterations to policy on screening of site	A proposed change is contained in the Proposed Modifications List.
113 - 115	HS22 – incorporate screening policy criteria, investigate potential for additional capacity including adjoining land	A Statement of Common Ground was sent on 22 December 2020.
118 – 119	HS24 – reconsider green belt boundary with Hertsmere and incorporate landscaping in policy	A Statement of Common Ground was sent on 22 December 2020.

122	HS31 – consider deletion	The policy deletion is contained in the Proposed Modifications list and reflected in the revised housing trajectory.
125	HS29 and HS30	The Council has recommended the deletion of these sites from the local plan. Changes contained in the Proposed Modifications list.
127	HS34 – delete and relocate pitches into Symondshyde	The deletion of HS34 is contained in the Proposed Modifications list. As the Council is recommending that Symondshyde is deleted from the local plan it is instead proposed that additional pitches are included within SP18 (see submitted note referred to against paragraphs 64-65 above) and the Proposed Modifications list.
135	Housing trajectory, five year supply position and justification if a stepped trajectory is required	A revised housing trajectory has been submitted along with an update housing land supply and a statement on whether a stepped trajectory is required.
138	Make a formal request for main modifications	A letter from Head of Planning formally requesting main modifications was emailed on 15 December 2020.
