Subject: NE UPDATED RESPONSE 401156 Addendum to Ecological Appraisal Report for 125 dwellings (Welwyn) 6/2022/1097/OUTLINE

You don't often get email from [REDACTED]. [Learn why this is important](#)

David

Thank you for re-consulting Natural England on the above mentioned consultation. We note that you requested a weeks turn around in our advice, in this instance we have been able to accommodate this, but in future please note that our statutory response time frame should be at least 21 days.

We are satisfied that the measures, including the additional surface water drainage measures, outlined in the Addendum to Ecological Appraisal Report are sufficient to satisfy our concerns for Water End Swallow Holes SSSI, and should be secured via a suitably worded condition. Therefore we do not have any remaining concerns at this outline stage.

Kind regards
Camilla
