

Appeal Ref: APP/C1950/W/22/3307844

APPEAL BY AURORA PROPERTIES (UK) LTD AGAINST THE REFUSAL OF OUTLINE PLANNING APPLICATION BY WELWYN HATFIELD BOROUGH COUNCIL FOR UP TO 125 dwellings, A CARE FACILITY FOR UP TO 60 bedrooms (Use Class C2), AND A SCOUT HOUT (Use Class F2) (ALL MATTERS RESERVED EXCEPT ACCESS)

AT LAND TO THE NORTH OF BRADMORE WAY, BRADMORE WAY, THE BROOKMANS PARK ESTATE, BROOKMANS PARK

SCHEDULE OF PLANNING CONDITIONS FOR CONSIDERATION

No.	Conditions proposed by Welwyn Hatfield Borough Council	Appellant's Comments and/or Suggested Alternatives
1	<p>Details of the appearance, landscaping, layout, and scale, (hereinafter called, the reserved matters) shall be submitted to and approved in writing by the Local Planning Authority before any development begins and the development shall be carried out as approved.</p> <p>REASON: Matters not particularised in the application are reserved for subsequent approval by the local planning authority. To comply with Section 92(1) of the Town and Country Planning Act 1990.</p>	<p>We have suggested a new condition x requiring an areas plan be submitted prior to or concurrently with the first reserved matters application in order to define the areas for the market and affordable units, the self-build and custom housing plots, the care home and the scout hut so that RMs for each can come forward separately and, for example, the submission of reserved matters for the SBCH plots does not delay progress on the market and affordable housing.</p> <p>Amended/new conditions proposed below:</p> <p>Condition X: Prior to, or concurrently with, the submission of the first reserved matters an areas plan for the entire application site identifying the areas/locations of the market and affordable housing, self-build and custom housing plots, care facility and the scout hut shall be submitted to and approved in writing by the Local Planning Authority. The development shall be carried out in accordance with the areas plan unless otherwise agreed in writing by the local planning authority.</p> <p>Condition 1: Details of the appearance, landscaping, layout, and scale (hereinafter called, the reserved matters) for each area identified on the plan to be submitted and approved in accordance with condition x shall be submitted to and approved in writing by the Local Planning Authority before any development begins in that area and the development shall be carried out as approved.</p>

2	<p>Application for approval of the reserved matters shall be made to the Local Planning Authority before the expiration of three years from the date of this permission.</p> <p>REASON: To comply with the requirements of Section 92(2) of the Town and Country Planning Act 1990.</p>	<p>Appellant to consider whether a shorter timeframe for the submission of RMs should be agreed.</p> <p>Applications for approval of the reserved matters for the market and affordable housing and the care home shall be made to the Local Planning Authority before the expiration of three two years from the date of this permission. Applications for approval of the reserved matters for the self-build and custom housing and the scout hut shall be made to the Local Planning Authority before the expiration of three years from the date of this permission.</p>
3	<p>The development hereby permitted shall be carried out in accordance with the following approved plans: drawing no. 490/20/OUT/PL1000 (Site Location Plan), drawing no. 2012-1353-DWG-214 Rev A (Proposed Site Access).</p> <p>REASON: To ensure that the development is carried out in accordance with the approved plans and details.</p>	<p>The development hereby permitted shall be carried out in accordance with the following approved plans: drawing no. 490/20/OUT/PL1000 (Site Location Plan) and drawing no. 2012-1353-DWG-214 Rev A (Proposed Site Access).</p>
4	<p>The development hereby permitted shall be begun before the expiration of two years from the date of approval of the last of the reserved matters to be approved, whichever is the later.</p> <p>REASON: To comply with the requirements of Section 92 (2) of the Town and Country Planning Act 1990.</p>	
5	<p>Development must not commence until a Construction Management Plan (or Construction Method Statement) has been submitted to and approved in writing by the Local Planning Authority. Thereafter, the</p>	<p>Development must not commence in an area of the site identified on the areas plan to be approved under condition x until a Construction Management Plan for that area has been submitted to and approved in</p>

<p>construction of the development must be carried out in accordance with the approved Construction Management Plan (or Construction Method Statement). The Construction Management Plan / Statement must include details of:</p> <ul style="list-style-type: none"> a) Construction vehicle numbers, type, routing; b) Access arrangements to the site; c) Traffic management requirements; d) Construction and storage compounds (including areas designated for car parking, loading / unloading and turning areas); e) Siting and details of wheel washing facilities; f) Cleaning of site entrances, site tracks and the adjacent public highway; g) Timing of construction activities (including delivery times and removal of waste) and to avoid school pick up/drop off times; h) Provision of sufficient on-site parking prior to commencement of construction activities; i) Post construction restoration/reinstatement of the working areas and temporary access to the public highway; and j) where works cannot be contained wholly within the site a plan should be submitted showing the site layout on the highway including extent of hoarding, pedestrian routes, and remaining road width for vehicle movements. 	<p>writing by the Local Planning Authority. Thereafter, the construction of the development of each area must be carried out in accordance with the approved Construction Management Plan (or Construction Method Statement) for that area unless otherwise agreed in writing by the Local Planning Authority. The Construction Management Plan / Statement must include details of:</p>  <ul style="list-style-type: none"> a) Construction vehicle numbers, type, routing; b) Access arrangements to the site; c) Traffic management requirements; d) Construction and storage compounds (including areas designated for car parking, loading / unloading and turning areas); e) Siting and details of wheel washing facilities; f) Cleaning of site entrances, site tracks and the adjacent public highway; g) Timing of construction activities (including delivery times and removal of waste) and to avoid school pick up/drop off times; h) Provision of sufficient on-site parking prior to commencement of construction activities; i) Post construction restoration/reinstatement of the working areas and temporary access to the public highway; and j) where works cannot be contained wholly within the site a plan should be submitted showing the site layout on the highway including extent of hoarding, pedestrian routes, and remaining road width for vehicle movements. <p>REASON: To protect highway safety and the amenity of other users of the public highway, in accordance with Policy SADM2 of the Welwyn</p>
---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

	<p>REASON: To protect highway safety and the amenity of other users of the public highway, in accordance with Policy SADM2 of the Welwyn Hatfield Borough Council Draft Local Plan Proposed Submission August 2016, and the National Planning Policy Framework.</p>	<p>Hatfield Borough Council Draft Local Plan Proposed Submission August 2016, and the National Planning Policy Framework.</p>
<p>6</p>	<p>Development must not commence until the following components of a scheme to deal with the risks associated with contamination of the site have been submitted to and approved in writing by the local planning authority:</p> <ul style="list-style-type: none"> a) An intrusive ground investigation, to provide information for a detailed assessment of the risk to all receptors that may be affected, including those off site. This should include an assessment of the potential risks to: human health, property (existing or proposed) including buildings, crops, pests, woodland and service lines and pipes, adjoining land, ground waters and surface waters, ecological systems, archaeological sites and ancient monuments; b) Site investigation results and detailed risk assessment and, based on these, an options appraisal and remediation strategy giving full details of the remediation measures required and how they are to be undertaken; c) A Method Statement detailing the depth and type of excavations (e.g. piling) to be undertaken including mitigation measures (e.g. turbidity monitoring, appropriate piling design, off site monitoring boreholes etc.) to prevent and/or minimise any potential migration of pollutants including turbidity or existing 	<p>Development must not commence until the following components of a scheme to deal with the risks associated with contamination of the site have been submitted to and approved in writing by the local planning authority:</p> <ul style="list-style-type: none"> a) An intrusive ground investigation, to provide information for a detailed assessment of the risk to all receptors that may be affected, including those off site. This should include an assessment of the potential risks to: human health, property (existing or proposed) including buildings, crops, pests, woodland and service lines and pipes, adjoining land, ground waters and surface waters, ecological systems, archaeological sites and ancient monuments; b) Site investigation results and detailed risk assessment, and, based on these, if necessary, an options appraisal and remediation strategy giving full details of the remediation measures required and how they are to be undertaken; c) A Method Statement detailing the depth and type of excavations (e.g. piling) to be undertaken including mitigation measures (e.g. turbidity monitoring, appropriate piling design, off site monitoring boreholes etc.) to prevent and/or minimise any potential migration of pollutants including turbidity or existing contaminants such as hydrocarbons to public water supply. Any

<p>contaminants such as hydrocarbons to public water supply. Any excavations must be undertaken in accordance with the terms of the approved method statement;</p> <p>d) A method statement detailing how surface water drainage at the site will prevent contamination of any public water supply abstractions present; and</p> <p>e) A verification plan providing details of the data that will be collected to demonstrate that the works set out in (ii) are complete and identifying any requirements for longer term monitoring of pollutant linkages, maintenance, and arrangements for contingency action.</p> <p>The development must be carried out in accordance with the approved details.</p> <p>REASON: To ensure that risks from land contamination to the future users of the land and neighbouring land are minimised, together with those to controlled waters, property and ecological systems, and to ensure that the development can be carried out safely without unacceptable risks to workers, neighbours and other offsite receptors, in accordance with Policies R2 and R7 of the Welwyn Hatfield District Plan 2005, Policy SADM18 of the Welwyn Hatfield Borough Council Draft Local Plan Proposed Submission August 2016, and the National Planning Policy Framework.</p>	<p>excavations must be undertaken in accordance with the terms of the approved method statement;</p> <p>d) A method statement detailing how surface water drainage at the site will prevent contamination of any public water supply abstractions present; and</p> <p>e) A verification plan providing details of the data that will be collected to demonstrate that theany works set out in (#b) are complete and identifying any requirements for longer term monitoring of pollutant linkages, maintenance, and arrangements for contingency action.</p> <p>The development must be carried out in accordance with the approved details.</p> <p>REASON: To ensure that risks from land contamination to the future users of the land and neighbouring land are minimised, together with those to controlled waters, property and ecological systems, and to ensure that the development can be carried out safely without unacceptable risks to workers, neighbours and other offsite receptors, in accordance with Policies R2 and R7 of the Welwyn Hatfield District Plan 2005, Policy SADM18 of the Welwyn Hatfield Borough Council Draft Local Plan Proposed Submission August 2016, and the National Planning Policy Framework.</p>
---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

7	<p>In the event that contamination is found at any time when carrying out the approved development that was not previously identified, works must cease immediately, and it must be reported in writing immediately to the Local Planning Authority. A further site investigation, risk assessment and method statement, must then be undertaken in accordance with the requirements of condition X and, where remediation is necessary, a remediation scheme must be undertaken in accordance with the requirements of condition X. Such requirements must be submitted to and approved in writing by the local planning authority before works re-commence, and the scheme must be implemented as approved.</p> <p>Following completion of measures identified in the approved remediation scheme, a verification report must be submitted to and approved in writing by the Local Planning Authority in accordance with the requirements of condition X prior to first occupation .</p> <p>REASON: To ensure that risks from land contamination to the future users of the land and neighbouring land are minimised, together with those to controlled waters, property and ecological systems, and to ensure that the development can be carried out safely without unacceptable risks to workers, neighbours and other offsite receptors, in accordance with Policies R2 and R7 of the Welwyn Hatfield District Plan 2005, Policy SADM18 of the Welwyn Hatfield Borough Council Draft Local Plan Proposed Submission August 2016, and the National Planning Policy Framework</p>	

8

A. Development must not commence until an Archaeological Written Scheme of Investigation has been submitted to and approved in writing by the local planning authority. The scheme shall include an assessment of archaeological significance and research questions; and:

- a) The programme and methodology of site investigation and recording;
- b) The programme and methodology of site investigation and recording as required by the evaluation;
- c) The programme for post investigation assessment;
- d) Provision to be made for analysis of the site investigation and recording;
- e) Provision to be made for publication and dissemination of the analysis and records of the site investigation;
- f) Provision to be made for archive deposition of the analysis and records of the site investigation;
- g) Nomination of a competent person or persons/organisation to undertake the works set out within the Archaeological Written Scheme of Investigation.

B. The development must not take place other than in accordance with the approved programme of archaeological works set out in the Written Scheme of Investigation.

C. The development must not be first occupied until the site investigation and post investigation assessment has been completed in accordance with the programme set out in the Written Scheme of

	<p>Investigation approved under part (A) and the provision made for analysis and publication where appropriate.</p> <p>REASON: To ensure adequate opportunity is provided for archaeological research on this historically important site. To enable the inspection of the site by qualified persons for the investigation of archaeological remains in accordance with a written scheme of investigation in accordance with Policy R29 of the Welwyn Hatfield District Plan 2005 and the National Planning Policy Framework. To ensure the appropriate identification, recording and publication of archaeological and historic remains affected by the development.</p>	
	<p>No development above ground level shall take place until a scheme setting out the arrangements for the delivery of accessible housing have been supplied to the local planning authority in accordance with the following requirements:</p> <ul style="list-style-type: none"> a) A schedule of units, together with appropriate plans and drawings, must be submitted to and be approved by the local planning authority setting out details of the number, layout and location of all units that will comply with Part M4(2) of the Building Regulations 2010. At least 20% of all new dwellings must meet Building Regulations Part M4(2) standards for ‘accessible and adaptable dwellings; b) All units specified as M4(2) in the agreed schedule and plans must be implemented in accordance with that approval and in compliance with the corresponding part of the Building Regulations in that regard; 	<p>Condition 9(d) seems somewhat confusing in that it requires “verification of completion of dwellings” prior to development commencing on site. This needs rewording and we suggest the following:</p> <p>No development above ground level shall take place until a scheme setting out the arrangements for the delivery of accessible housing havehas been supplied to the local planning authority in accordance with the following requirements:</p> <ul style="list-style-type: none"> a) A schedule of units, together with appropriate plans and drawings, must be submitted to and be approved by the local planning authority setting out details of the number, layout and location of all units that will comply with Part M4(2) of the Building Regulations 2010. At least 20% of all new dwellings must meet Building Regulations Part M4(2) standards for ‘accessible and adaptable dwellings; b) All units specified as M4(2) in the agreed schedule and plans must be implemented in accordance with that approval and in

	<p>c) The person carrying out the building work must inform the Building Control body which requirements apply; and</p> <p>d) Written verification of the completion of all dwellings in accordance with part (a) above will be supplied to the local planning authority within 30 days of the practical completion.</p> <p>REASON: To ensure that suitable housing is provided for households in need of accessible or wheelchair housing in accordance with Policies D1 and H10 of the Welwyn Hatfield District Plan 2005, Policy SP7 of the Welwyn Hatfield Borough Council Draft Local Plan Proposed Submission August 2016, and the National Planning Policy Framework.</p>	<p>compliance with the corresponding part of the Building Regulations in that regard;</p> <p>c) The person carrying out the building work must inform the Building Control body which requirements.</p> <p>Written verification of the completion of all dwellings in accordance with part (a) above will be supplied to the local planning authority within 30 days of their practical completion.</p>
10	<p>No development above ground level shall take place until a scheme for the provision of fire hydrants, necessary for firefighting purposes at the site, has been submitted to and approved in writing by the Local Planning Authority. The development must not be occupied until the scheme has been implemented in accordance with the approved details.</p> <p>REASON: To ensure water infrastructure provision is made for the local fire service to discharge its statutory firefighting duties, in accordance with Policy IM2 of the Welwyn Hatfield District Plan, Policy SP13 of the Welwyn Hatfield Borough Council Draft Local Plan Proposed Submission August 2016, and the National Planning Policy Framework.</p>	
11	<p>As part of the first application for approval of reserved matters for the development hereby permitted, details of a scheme for the disposing of surface water by a means of sustainable drainage system for the whole development shall be submitted to and approved in writing by the Local</p>	

<p>Planning Authority in accordance with the approved drainage strategy and discharge rates (19.30l/s for the 1 in 1 critical storm duration and 22.2 l/s for the 1 in 100 plus cc critical storm duration) as contained within the Flood Risk Assessment (Revision REV 3.0: dated January 2023).</p> <p>The scheme shall be implemented in full in accordance with the approved details prior to first occupation of the development. The submitted details shall:</p> <ul style="list-style-type: none">a) Provide information about the design storm period and intensity, the method employed to delay and control the surface water discharge from the site via a proposed Sustainable drainage system and the measures taken to prevent pollution of the receiving surface waters. This shall include the following information:b) Demonstrate that the proposed surface water drainage system does not surcharge in the 1 in 1 critical storm duration, flood in the 1 in 30 plus climate change critical storm duration or the 1 in 100 critical storm duration; andc) Demonstrate that any flooding that occurs when taking into account climate change for the 1 in 100 critical storm event in accordance with NPPF does not leave the site uncontrolled via overland flow routes. <p>REASON: To ensure the development does not increase flood risk and remains safe in accordance with Policy SADM14 of the Welwyn Hatfield</p>	
------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	--

	Borough Council Draft Local Plan Proposed Submission August 2016, and the National Planning Policy Framework	
12	<p>As part of the submission of the reserved matters application for the development hereby permitted, construction drawings of the surface water drainage network, associated sustainable drainage components, flow control mechanisms and a detailed construction method statement (which ensures protection of the surface water drainage system through the whole of the construction as well as ensuring no debris/silt or sediment enters the surface water drainage system), must be submitted to and approved in writing by the Local Planning Authority.</p> <p>The scheme must be constructed in accordance with the approved drawings, method statement and Micro drainage calculations prior to the first occupation of the development. No alteration to the approved drainage scheme shall occur without prior written approval of the Local Planning Authority.</p> <p>REASON: To ensure the development does not increase flood risk and remains safe in accordance with Policy SADM14 of the Welwyn Hatfield Borough Council Draft Local Plan Proposed Submission August 2016, and the National Planning Policy Framework.</p>	<p>As part of the first application for approval of submission of the reserved matters application for the development hereby permitted, construction drawings of the surface water drainage network, associated sustainable drainage components, flow control mechanisms and a detailed construction method statement (which ensures protection of the surface water drainage system through the whole of the construction as well as ensuring no debris/silt or sediment enters the surface water drainage system) for the whole development must be submitted to and approved in writing by the Local Planning Authority.</p> <p>The scheme must be constructed in accordance with the approved drawings, method statement and Micro drainage calculations prior to the first occupation of the development. No alteration to the approved drainage scheme shall occur without prior written approval of the Local Planning Authority.</p> 
13		<p>This condition duplicates Schedule 7 of the S106 Agreement dealing with SUDS. The Appellant's position is that it is unnecessary and should therefore be deleted.</p> 
14	Prior to first occupation of the development, a detailed verification report, (appended with substantiating evidence demonstrating the approved construction details and specifications have been	

	<p>implemented in accordance with the surface water drainage scheme, Flood Risk Assessment, and flood bypass channel), must be submitted to and approved in writing by the Local Planning Authority.</p> <p>The verification report must include photographs of excavations and soil profiles/horizons, any installation of any surface water structure and control mechanism.</p> <p>REASON: To ensure the development does not increase flood risk and remains safe in accordance with Policy SADM14 of the Welwyn Hatfield Borough Council Draft Local Plan Proposed Submission August 2016, and the National Planning Policy Framework</p>	
15	<p>As part of the submission of the reserved matters application for the development hereby permitted, calculations, construction drawings including cross sections of the proposed bypass channel and associated flood compensation areas (ensuring water can flow freely in and out of the areas), flow control mechanisms and a detailed construction method statement (which ensures protection of the ordinary watercourse) must be submitted to and approved in writing by the Local Planning Authority.</p> <p>The scheme shall then be constructed in accordance with the approved drawings, method statement and Micro drainage calculations prior to the first occupation of the development. No alteration to the approved drainage scheme shall occur without prior written approval of the Local Planning Authority.</p> <p>REASON: To ensure the development does not increase flood risk and remains safe in accordance with Policy SADM14 of the Welwyn Hatfield</p>	<p>As part of the submission of the first application for approval of reserved matters application for the development hereby permitted, calculations, construction drawings including cross sections of the proposed bypass channel and associated flood compensation areas (ensuring water can flow freely in and out of the areas), flow control mechanisms and a detailed construction method statement (which ensures protection of the ordinary watercourse) for the whole development must be submitted to and approved in writing by the Local Planning Authority.</p> <p>The scheme shall then be constructed in accordance with the approved drawings, method statement and Micro drainage calculations prior to the first occupation of the development. No alteration to the approved drainage scheme shall occur without prior written approval of the Local Planning Authority</p>

	Borough Council Draft Local Plan Proposed Submission August 2016, and the National Planning Policy Framework.	
16	<p>Prior to first occupation of the development, details of the maintenance and management of the ordinary water course, bypass channel and flood compensation areas must be submitted to and approved in writing by the Local Planning Authority. The Bypass channel and flood compensation areas must be implemented prior to the alteration of the existing access road and prior to the first occupation of the development, and thereafter managed and maintained in accordance with the approved details in perpetuity.</p> <p>REASON: To ensure the development does not increase flood risk and remains safe in accordance with Policy SADM14 of the Welwyn Hatfield Borough Council Draft Local Plan Proposed Submission August 2016, and the National Planning Policy Framework.</p>	
17	<p>Prior to first occupation of the development, additional plans showing the detailed engineering designs and construction of the Bradmore Way access and associated highway works, as shown indicatively on drawing numbers (tbc), must be submitted to an approved in writing by the Local Planning Authority.</p> <p>The approved details must be completed prior to first occupation of the development.</p> <p>REASON: To ensure the provision of a vehicle access which is safe, suitable, and sustainable for all highway users, in accordance with Policy SADM2 of the Welwyn Hatfield Borough Council Draft Local Plan Proposed Submission August 2016, and the National Planning Policy Framework</p>	<p>Prior to first occupation of the development, a scheme showing the detailed engineering designs and construction of the Bradmore Way access and associated highway works, as shown indicatively on drawing numbers (2013-1353-DWG-214_A and 2012-1353-300_C), must be submitted to an approved in writing by the Local Planning Authority.</p> <p>The approved details must be completed prior to first occupation of the development.</p> <p>REASON: To ensure the provision of a vehicle access which is safe, suitable, and sustainable for all highway users, in accordance with Policy SADM2 of the Welwyn Hatfield Borough Council Draft Local Plan Proposed Submission August 2016, and the National Planning Policy Framework</p>

<p>18</p>	<p>Prior to first occupation of the development, a pre-occupation noise testing report must be submitted to and approved in writing by the local planning authority. This report must include:</p> <ul style="list-style-type: none"> a) All measures implemented at the dwellings and care home to reduce noise from the railway line; b) Noise tests showing that indoor ambient noise levels in living rooms and bedrooms meet the standards within BS 8233:2014. Internal L_{Amax} levels should not exceed 45dB more than ten times a night in bedrooms; and c) That outdoor amenity areas comply with the 55dB WHO Community Noise Guideline Level. If outdoor amenity areas cannot comply, then it must be shown through testing that a suitable place are of public outdoor amenity space is available within a 5-minute walk from the development that complies with the amenity noise level; <p>Should there be non-compliance with the noise levels in part (ii) or (iii), mitigation measures must be provided within the pre-occupation testing report to the satisfaction of the local planning authority.</p> <p>The development must be carried out in accordance with the approved details.</p> <p>REASON: To protect the occupants of the new development from noise disturbance, in accordance with Policies D1 and R19 of the Welwyn Hatfield District Plan 2005, Policy SADM18 of the Welwyn Hatfield Borough Council Draft Local Plan Proposed Submission August 2016, and the National Planning Policy Framework.</p>	<p>It is noted that a noise test within the care home is required before any of "The Development" can be occupied. This conflicts with condition 19 which requires that the 125 dwellings can be built, but the care home cannot be built until off site waste water upgrades have been completed, which is out of our direct control.</p> <p>Furthermore, purely in terms of construction time and phasing, the dwellings (approx 9 months construction time) are likely to be ready for occupation prior to the completion of the care home (approx 12 to 15 months construction time), plus the care home can only commence construction after the roads and services are delivered to that part of the site.</p> <p>Prior to first occupation of any relevant area of the development in accordance with the areas plan approved under condition x, a pre-occupation noise testing report for that part relevant area of the development must be submitted to and approved in writing by the local planning authority. This report must include:</p> <ul style="list-style-type: none"> a) All measures implemented at the dwellings and care home as applicable to reduce noise from the railway line; b) Noise tests showing that indoor ambient noise levels in living rooms and bedrooms meet the standards within BS 8233:2014. Internal L_{Amax} levels should not exceed 45dB more than ten times a night in bedrooms; and c) That outdoor amenity areas comply with the 55dB WHO Community Noise Guideline Level. If outdoor amenity areas cannot comply, then it must be shown through testing that a suitable place are of public outdoor amenity space is available within a 5-minute walk from
-----------	---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

<p>As part of each of the applications for approval of reserved matters for the market and affordable housing, self-build and custom housing plots, and care facility, a scheme to protect future occupiers from noise associated with the railway must be submitted, in accordance with the following requirements:</p> <ul style="list-style-type: none"> a) Indoor ambient noise levels in living rooms and bedrooms from the railway should meet the standards within BS 8233:2014; b) Internal L_{Amax} levels should not exceed 45dB more than ten times a night in bedrooms; c) If opening windows raise the internal noise levels above those within BS8233, mechanical ventilation will need to be installed. Indoor ambient noise levels in living rooms and bedrooms must then meet the standards within BS 8233:2014 (with the mechanical ventilation system off, on and on maximum boost setting). Also, ventilation rates are required to meet those found within The Noise Insulation Regulations 1975; and d) Outdoor amenity areas will need to meet the 55dB WHO Community Noise Guideline Level. If outdoor amenity areas cannot comply, then it must be shown through 	<p>the development that complies with the amenity noise level;</p> <p>Should there be non-compliance with the noise levels in part (ii) or (iii), mitigation measures must be provided within the pre-occupation testing report to the satisfaction of the local planning authority.</p> <p>The development must be carried out in accordance with the approved details.</p> <p>REASON: To protect the occupants of the new development from noise disturbance, in accordance with Policies D1 and R19 of the Welwyn Hatfield District Plan 2005, Policy SADM18 of the Welwyn Hatfield Borough Council Draft Local Plan Proposed Submission August 2016, and the National Planning Policy Framework.</p>
---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

	<p>measurements that a suitable place is available within 5 minute walk from the development that complies with the amenity noise level.</p> <p>In terms of requirements (d), alternative methods (such as passive systems) and rates can be considered, however, evidence that overheating will not occur will need to be provided in the form of a SAP assessment conducted with windows closed, curtains/blinds not being used, showing the required ventilation rates to ensure that the medium risk category is not exceeded. Details must be provided of the ventilation system to be installed and to demonstrate that it will provide the ventilation rates shown in the SAP Assessment.</p> <p>REASON: To ensure that intended occupiers of the development are not subject to unacceptable levels of noise due to the transport noise source, in accordance with Policy R19 of the Welwyn Hatfield District Plan 2005, Policy SADM 18 of the Welwyn Hatfield Borough Council Draft Local Plan Proposed Submission August 2016, and the National Planning Policy Framework.</p>	
19	<p>No occupation beyond the 60th dwelling (incl. 60 bed care facility and scout hut) or 125th dwelling (not including the 60 bed care facility and scout hut) shall occur until the following details have been submitted to and approved in writing by the local planning authority:</p> <p>a) All foul water network upgrades required to accommodate the additional flows from the development have been completed; or</p>	<p>WHBC are seeking to discuss the wording of this condition with Thames Water, as it is unclear as suggested. Alternatively the condition could be reworded:</p> <p>No more than 125 dwellings but excluding the care home and scout hut, or no more than 60 dwellings including the care home and scout hut, shall be occupied until either:</p>

	<p>b) A development and infrastructure phasing plan has been agreed with Thames Water to allow additional development to be occupied. Where a development and infrastructure phasing plan is agreed, no occupation of those additional dwellings shall take place other than in accordance with the agreed development and infrastructure phasing plan.</p> <p>REASON: Network reinforcement works are likely to be required to accommodate the proposed development. Any reinforcement works identified will be necessary to avoid sewage flooding and/or potential pollution incidents, in accordance with Policies R2, R7 and R9 of the Welwyn Hatfield District Plan 2005; Policy SADM18 of the Welwyn Hatfield Borough Council Draft Local Plan Proposed Submission August 2016; and the National Planning Policy Framework.</p>	<p>a) All foul water network upgrades required to accommodate the additional flows from the development have been completed; or</p> <p>b) A development and infrastructure phasing plan has been agreed with Thames Water to allow additional development to be occupied.
